

REMARKS

As agreed to during a telephone interview on October 6, 2006 between the Examiner and Applicant's representative, Eric Amundsen, claim 25 has been amended to be clear that the receptacle is moved to a forwardly inclined position in which the opening of the receptacle faces away from the lid.

If it is determined that a telephone conference would expedite the prosecution of this application, the Examiner is invited to telephone the undersigned at the number given below.

In the event the U.S. Patent and Trademark Office determines that an extension is required, applicant petitions for any required relief including extensions of time and authorizes the Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this document to Deposit Account No. 23/2825 referencing docket no. K0502.70041US00.

Respectfully submitted,

By
